PPS Services

Complete line of services to optimize financial success under the current Medicare SNF PPS reimbursement system:

PPS Education/Inservicing
Consolidated Billing Education
RAI Education
Case Mix Optimization

Medicare Claims Appeals Management

On May 1st, 2005 CMS implemented the new Medicare Claims Appeal procedures for Medicare Part A & B claims.

Clinical Reimbursement Solutions, LLC can assist you throughout the appeals process.

Consolidated Billing Invoice Review Program

Consolidated Billing requires a detailed review of invoices from outside providers to minimize financial liability.

Clinical Reimbursement Solutions, LLC can conduct the review of your invoices and assist in establishing internal controls.

Clinical Reimbursement Compliance Reviews

These reviews are designed to identify potential areas of noncompliance with Medicare rules and regulations. The Clinical Reimbursement Compliance Reviews include the following:

Pre-Admission/Admission Process
UB-92 Billing Review
Medicare Skilled Coverage
PPS Communication Systems
MDS/RAI Processes
Documentation Reviews
Certifications/Recertifications

The Clinical Reimbursement Compliance Review can be customized around your facility's specific policies and procedures.

MDS Accuracy Reviews

Accuracy of the MDS impacts multiple areas of the LTC industry: Quality of Care, Reimbursement, Quality Indicators and Quality Measures.

Understanding the coding instructions of the MDS can be confusing, and is essential under the our current reimbursement system and proposed Pay For Performance regulations currently under consideration.

Our MDS Accuracy reviews allow us to identify opportunities to assist you with compliance in the MDS/RAI process as well as PPS/Medicare rules, regulations and reimbursement.

Seminars

Clinical Reimbursement Solutions, LLC provides in-depth, educational seminars related to optimization of reimbursement systems and regulatory compliance.

Clinical Reimbursement Solutions, LLC is proud to offer the AANAC Credentialing program.
